### Course pointers.

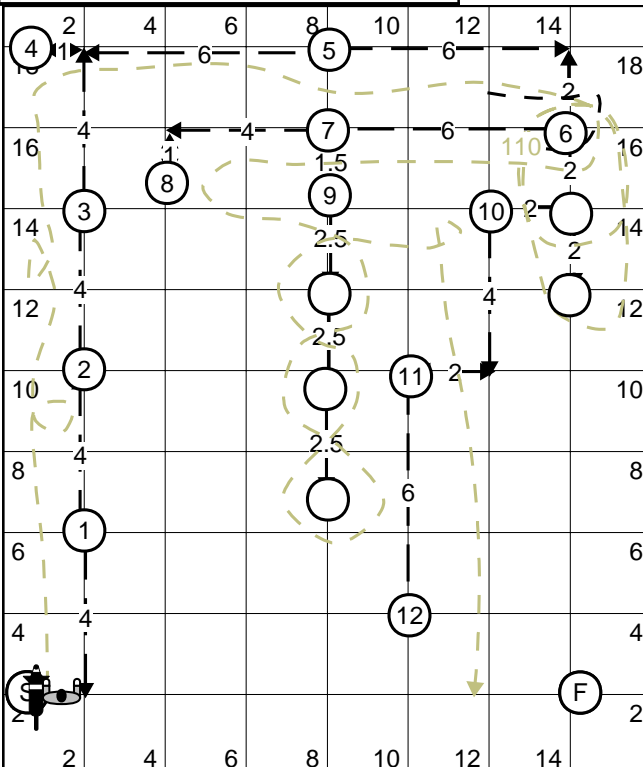

**Halt-down.** Two distinct positions. The handler cannot move their feet once they have stopped for the sit. Any extra commands are penalised.  
**Moving side step right**—a diagonal movement to the right, where the right leg moves forward on the diagonal and the left leg follows. There is no bringing together of the feet, the handler keeps moving along the new line with the dog.

**Halt-sit-walk around.** There is a pause after the walk around where the handler brings both feet together and then moves forward.

**Halt-fast forward from a sit**— don't forget the sit!!
