Halt-sit-walk around—the dog sits, the dog waits while the handler walks around, the handler pauses momentarily (One thousand) and then continues. Figure of eight weave and Spiral right—ensure the handlers know which is the correct side of the cones to enter and exit on.

Call front-finish left-forward—The handler can take a few steps backwards as they call their dog to sit in front of them. The dog is then directed (no handler foot movement allowed) to the handler's left, and once the dog has moved and would no longer impede the handler they can continue.
